PROFILE

Designer with 3+ years of experience creating brand identities, e-commerce experiences, websites, and marketing systems for Romanian and international clients. My work sits at the intersection of branding, digital design, and business strategy – combining strong visual direction with practical execution that performs across real commercial environments. Experienced in leading projects from concept to delivery, collaborating directly with clients, developers, marketers, and creative teams.

WORK EXPERIENCE

Senior Brand & Web Designer

2025 – Present

BLACK SHEEP · BUCHAREST, RO

- Lead designer for branding, website, and digital marketing projects across multiple industries.
- Translate creative direction into scalable visual systems, production-ready assets, and structured workflows for the team.
- Design high-performing landing pages, e-commerce experiences, and advertising materials for Meta and Google platforms.
- Collaborate with the creative director and companies representants, balancing business objectives with creative execution.
- Contribute to pitch presentations and visual communication used for client acquisition and brand positioning.
- Improve internal design processes to increase consistency, speed, and collaboration between departments.

Graphic & Web Designer

2023 – 2025

EMMA RED TECHNOLOGY · CHISINAU, MD

- Delivered branding, website design, and digital marketing assets for clients across healthcare, FMCG, real estate, manufacturing, and e-commerce.
- Designed complete visual identity systems including logos, typography, color systems, packaging, and brand guidelines.
- Created digital campaigns, Meta advertisements, newsletters, banners, and social media assets focused on engagement and conversion.
- Worked closely with developers and marketing teams to ensure pixel-perfect implementation across all touchpoints.
- Managed multiple parallel projects while maintaining design consistency, production quality, and delivery timelines.

iOS UI Designer

2022 – 2023

MIDNIGHT.WORKS · CHISINAU, MD

- Designed mobile application interfaces, wireframes, and interactive prototypes for iOS using Figma.
- Collaborated with developers and product managers during development and App Store launch preparation.

SELECTED CLIENT WORK

CDL

01

INTERNATIONAL · PACKAGING & BRAND

Singapore-based industrial and FMCG company. Designed three major waves of gas cylinder label systems, limited-edition packaging, a full snus product line visual system, website design, and ongoing marketing materials.

Intergasses

02

POLAND · E-COMMERCE WEB DESIGN

Producer of disposable and refillable gas cylinders. Designed and built a complete e-commerce website in Webflow — product architecture, UX flow, visual identity, and production-ready launch.

Klintensiv

03

MEDICAL HYGIENE · BRAND & DIGITAL

Romanian professional hygiene and disinfection brand. I worked across advertising creatives, website improvements, packaging systems, product labels, launch materials, newsletters, and sales presentations — balancing medical credibility with clear commercial communication.

Herbaris

04

HOME CARE · E-COMMERCE & MARKETING

Romanian eco-focused home care and natural products brand. I worked on website visuals, newsletter systems, campaign creatives, product-focused banners, catalog materials, and promotional assets — helping translate a natural, eco-conscious positioning into a cleaner and more consistent visual language.

Capodopera 12

05

FASHION RETAIL · E-COMMERCE

Premium fashion retailer focused on curated clothing, footwear, and accessories. I worked on website visuals, campaign banners, newsletter designs, product promotions, e-commerce layouts, and retail marketing assets — improving the brand’s premium feel and online shopping communication.

Elite Homes

06

REAL ESTATE · BRAND & DIGITAL

Real estate and hospitality business focused on premium rental properties. I worked on platform design, sales presentations, pitch decks, printed materials, catalogs, and Meta advertising creatives — supporting a clearer, more premium brand presence and better communication with clients and partners.

FREELANCE PRACTICE

Alongside agency work, I collaborate with selected founders and small businesses on independent branding and website projects. Most engagements involve building visual identity systems from the ground up — logo design, brand guidelines, websites, and digital communication, delivered end-to-end with full ownership.

Working directly with clients without a middleman has sharpened both strategic thinking and the ability to manage projects independently from first conversation to final delivery.
